Education

Graphic Era University, Dehradun **2022 – 2026**
B.Tech in Computer Science & Engineering *CGPA: 8.19/10*
New Doon Blossoms School, Dehradun **2022**
Class 12th (I.S.C.) *91%*
Doon Blossoms School, Dehradun **2020**
Class 10th (I.C.S.E.) *85%*

Work Experience

AI Developer Intern — Mind Scope IT Services LLC (Remote) **Jan 2026 – Present**

AI Chatbot using LangChain & Assessment Readiness System

- Engineered a **RAG-based AI chatbot** using **LangChain** to deliver context-aware and accurate responses.
- Developed a **Flask-based Assessment Readiness System** to automate candidate evaluation and provide actionable feedback.
- Optimized retrieval pipelines and prompt engineering techniques to improve response quality and system accuracy.

Software Intern — Yuga Yatra Retail (OPC) Private Limited (Remote) **Sep 2025 – Nov 2025**

Image Segmentation using K-Means++ Clustering

- Engineered an image segmentation pipeline using **K-Means++ clustering** and **RGB pixel processing**.
- Optimized segmentation performance using **Euclidean distance metrics** and centroid refinement techniques, achieving **92% segmentation accuracy**.

Projects

AI Healthcare Chatbot **May 2025 – July 2025**

- Built a healthcare chatbot using NLP (NLTK, SpaCy) with TF-IDF and a Voting Classifier for disease prediction, achieving **92.3% accuracy** and providing medicine recommendations.
- Created an interactive **Streamlit** interface with robust input validation and error handling; validated prediction logic through unit tests to ensure reliable outputs.

Gesture Canvas (Hand Gesture Drawing) **Feb 2025 – Apr 2025**

- Engineered an air canvas application using **OpenCV** and **MediaPipe** achieving **95% accuracy** in real time hand-gesture detection .
- Developed core functionality for dynamic shape (circle, rectangle, line) and optimized gesture recognition logic to ensure low-latency , fluid user interaction.

Hate Speech Detection on Social Media **Oct 2024 – Dec 2024**

- Built an NLP-based detection model using TF-IDF and Random Forest classifier, achieving **90.86% accuracy** after advanced text preprocessing and lemmatization.
- Developed a **Streamlit** application for real-time hate speech detection across text , tweets, and YouTube comments, and validated model performance using train-test evaluation techniques.

Skills

Programming Languages: Python, Java, C++, JavaScript, SQL
AI/ML & Data: Machine Learning, Deep Learning, Natural Language Processing (NLP), Generative AI, LangChain, Retrieval-Augmented Generation (RAG), TensorFlow, Scikit-learn, OpenCV, MediaPipe, Pandas, NumPy,NLTK, SpaCy
Core CS: Data Structures & Algorithms, OOP, DBMS, OS, NoSQL,Data Communication And Networks
Development & Tools: Flask,REST APIs, Streamlit,Git,GitHub, VS Code, Agile Methodology

Certifications

- **DP-900: Microsoft Azure Data Fundamentals** (2024) – Core data concepts, relational/non-relational data, analytics workloads, and Azure data services.
- **Deloitte Data Analytics Job Simulation** (2025, Forage) – Built a Tableau dashboard, analyzed and classified data using Excel to uncover key business insights.

Achievements

- Secured **Rank 41** out of 40,000+ participants in **CodeClash: The August Arena**, demonstrating strong problem-solving skills in coding and technical concepts.
- Selected as a Contributor in **GirlScript Summer of Code (GSSoC) 2025**, contributing to open-source projects while collaborating with mentors and developers worldwide.
